**DETAILED ACTION**

***Response to Arguments***

1. Applicant's arguments filed July 10, 2008 have been fully considered but they are not persuasive.

Applicants traverses the 35 U.S.C. 103(a) rejection of Hashimoto U.S. Patent Application Publication 2004/0016115 A1 in view of Kawai et al., U.S. Patent 6,621,153 applied to claims 29-30 because Applicants believe that a prima facie case of obviousness was not made.

Applicants are implying that they are the first to invent a coin comprising a non-contact thin film integrated circuit device and no one has conceived the invention before Applicants.

2. In response to Applicants contention that a prima facie case of obviousness was not made, Applicant's arguments do not comply with 37 CFR 1.111(c) because they do not clearly point out the patentable novelty which he or she thinks the claims present in view of the state of the art disclosed by the references cited or the objections made. The arguments in which Applicants rely upon for the traversal appears to be "fill material" which is merely nothing more than a copy and paste of the MPEP § 2142-2143.01.

***Allowable Subject Matter***

3. Claims 1-9, 11-20 and 22-28 allowed.

***Information Disclosure Statement***

4. The information disclosure statement (IDS) submitted on July 10, 2008 was filed after the mailing date of the Non-final Office Action on March 5, 2008. The submission is in compliance

Art Unit: 2823

with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
